**TIRES:** F: P275/35ZR18; R: P325/30ZR19

**EXT:** Arctic White

**INTERIOR:** Ebony Leather

**BASE MSRP:** \$49,600

The Chevrolet Corvette is the best high-performance value in America. This coupe comes with a 436-hp LS3 6.2-liter V8 and 6-speed manual transmission. It also features a 6-speed automatic with steering wheel paddle shifters. The optional dual-mode exhaust increases horsepower from 430 to 436 hp. For 2013, the Chevrolet Corvette is a carryover from 2012 with the addition of several special packages.

The Corvette interior has been refined for greater driving support and comfort. The seat design includes larger bolsters on the setback and cushion areas for increased support. Optional microfiber seat inserts compliment the new design even further, as does the revised steering wheel featuring model-specific badges, streamlined switch trim, wrapped spokes, better hand placement and thumb grips. Padded center console and armrests on all models soften the interior.
