LEGENDS & DIAMONDS ARE FOREVER EL PRIMERO CHRONOMASTER LADY

Since 1865, Zenith has loved women every bit as much as women love watches, and has thereby succeeded in enriching watchmaking with vibrant colour and feminine delicacy. From the first enamelled pocket watches to jewellery pendant watches and complicated wristwatches, its creations are an anthem to elegance and to the watchmaking art.

Zenith ladies' watches extend an open invitation to enjoy excellence, as exemplified by the new El Primero Chronomaster Lady diamond-set rose gold model, available with a choice of black or brown dial with baguette diamonds.

The inner beauty of a fascinating mechanism is matched by the aesthetic refinement of exceptional timepieces. Embodying the philosophy of absolute performance, the world's most precise movement – the legendary El Primero – appears housed in a 42 mm case perfectly suited to women's wrists. The El Primero Chronomaster Lady thus enriches the 2016 El Primero ladies' collections with its two new dials, along with its delicately diamond-pavé bezel accentuating the sparkling sensuality of this delightfully feminine model.

Zenith is a brand that has been bringing style and substance to the wrists of watchmaking cognoscenti all over the world for more than 150 years. Founded in Le Locle in 1865 by a visionary watchmaker, Georges Favre-Jacot, the Manufacture Zenith gained swift recognition for the precision of its chronometers, with which it has won 2,333 chronometry prizes in a century and a half of existence: an absolute record. Having earned fame thanks to its legendary El Primero calibre – an integrated automatic column-wheel chronograph movement launched in 1969 and endowed with a high frequency of 36,000 vibrations per hour that ensures short-time measurements accurate to the nearest 1/10th of a second – the Manufacture Zenith has since developed over 600 movement variations. Zenith remains one of a select group of traditional luxury watch brands to produce all its movements in-house, the industry's ultimate token of quality. Engaged in several vintage territories such as classic cars, Zenith currently offers a collection of exclusive and ageless finely crafted timepieces designed for sartorially minded men and women. Zenith's rich heritage, tradition, passion and pursuit of excellence reflect the legacy of its slogan "Legends are forever".
