

THE FIRESTONE DESTINATION HP

Don't believe in limits

Barriers are there to be broken. Which is why the Destination HP - Firestone's flagship SUV tyre - has everything you need to go beyond them. Experience the difference of real grip and real stability, in both wet and dry conditions, mile after mile. Because wherever you're headed, you can count on the Destination to go the distance.

» Modern, sporty appearance

Which here stands for sporty performance! The Destination HP's rugged tread ensures excellent traction and control when cornering.

The **stiff 'μ' shoulder blocks** maximise grip and steering response.

» Good mileage for economy

Get more out of your tyres and your fuel tank! The Destination HP will last up to 35% longer* than other tyres in its class and even helps cut down on fuel consumption.

The **advanced casing construction** reduces irregular wear by improving pressure distribution, while delivering high-level, balanced performance.

» High stability in wet & dry conditions

Enjoy that real grippy feel, even on wet roads, thanks to the Destination HP's sports-oriented pattern.

The **centre groove 3D tie bar** improves block stiffness without hindering water flow, for better braking and handling.

The **optimised groove distribution** gets rid of water faster, gives you more control and boosts resistance to aquaplaning.
