GETTING THE JOB DONE

VANHAWK 2

GETTING THE JOB DONE

- » Outstanding fuel economy, rolling resistance and wet-weather handling
- » Engineered to keep on performing with robust construction and long wear life
- » Competitive total cost of ownership to give you an extra advantage

If the job's worth doing, it's worth doing well. And with the all-new Firestone Vanhawk 2 tyre for light commercial vehicles, you're already halfway there!

Built to perform time and time again with great wet-weather handling and improved fuel economy*. To get it done on time and on budget!

NEW

FEATURES

IMPROVED WET WEATHER HANDLING*

The upgraded pattern design achieves EU label grade B in wet grip (on a scale from A, highest to G, lowest), and delivers sharper braking and better handling in the rain*. Most other light commercial vehicles' tyres don't even get close to this level of wet weather control.

REDUCED FUEL CONSUMPTION*

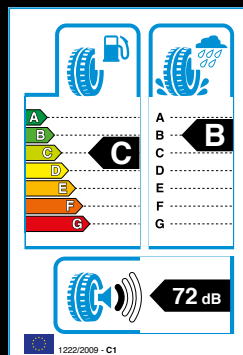

The tuned tread pattern and compound provide excellent rolling resistance (EU label C for the full line up) to help decrease fuel consumption and reduce carbon emissions*.

WELL-KNOWN, LONG-LASTING WEAR

The robust construction and long wear life of Vanhawk remains. Vanhawk 2 stands the test of intensive commercial use and keeps performing day in and day out.
