### Sharper design, greater performance – the 2018 Porsche 718 GTS Models

More power, exclusive equipment

**Atlanta, Georgia.** Porsche is expanding the mid-engine 718 Boxster and 718 Cayman model lines with new GTS models. A newly developed intake plenum and an optimized turbocharger increases the output of the 2.5 liter flat-four cylinder engine to 365 horsepower. This is 15 horsepower more than on the 718 S models and up to 35 horsepower more compared to the previous generation of naturally aspirated Boxster and Cayman GTS variants. Like all 718 model variants, the new GTS derivatives come standard with a six-speed manual transmission. The seven-speed Porsche Doppelkupplung (PDK) dual-clutch transmission is available to order as an option. A number of performance-enhancing options such as Porsche Torque Vectoring (PTV) including a mechanical rear-differential lock or the Sport Chrono Package are standard on the GTS models, as well as Porsche Active Suspension Management (PASM), which reduces the ride height by 0.39 inches (10 millimeters) compared to the standard suspension on other 718 Boxster and Cayman models.

#### **Increased performance with more power**

The maximum torque of up to 317 lb-ft (309 lb-ft on manual transmission models) is available across a broad power band from 1,900 to 5,000 rpm (1,900 to 5,500 rpm on manual transmission models) and further improves acceleration. When equipped with the optional PDK transmission both GTS models are capable of accelerating from zero to 60 mph in 3.9 seconds. The top track speed is 180 mph.

### **Characteristic GTS: black accents inside and out**

The GTS models set themselves apart through distinct visual differences. The Sport Design front fascia underscores the performance of the car. Tinted front indicator lights and taillights, model designations in black, a black lower rear fascia, and black tips on the centrally mounted standard Sport Exhaust System make the GTS models stand out. Black GTS designations on the doors and matte black 20-inch wheels complete the particularly dynamic appearance.

### **Interior: Standard Alcantara® and Porsche Track Precision App**

The interior is also pure GTS. The chronometer of the standard Sport Chrono Package is centrally mounted on the dashboard. The seat centers of the standard Sport Seats Plus are made of Alcantara®. Featuring an embroidered GTS logo on the headrests, they provide particularly high lateral support and comfort. The steering wheel rim, center console armrest, and door armrests are also made of Alcantara®. When the optional Navigation Module and Connect Plus Packages are ordered, the standard Sport Chrono Package also offers the Porsche Track Precision App (PTPA). The app allows performance oriented drivers to automatically record, display, and analyze driving data obtained on closed courses on a smartphone.

### **Market availability and pricing**

The 2018 718 GTS models are now available to order and are expected to arrive at U.S. dealers by March 2018. The base MSRP — excluding the \$1,050 delivery, processing, and handling fee — is as follows:

718 Cayman GTS	\$79,800
718 Boxster GTS	\$81,900

### About Porsche Cars North America, Inc. | One Porsche Drive, Atlanta, GA 30354 USA

Established in 1984, Porsche Cars North America, Inc. (PCNA) is the exclusive U.S. importer of Porsche 911, 718 Boxster and 718 Cayman sports cars; Macan and Cayenne SUVs; and Panamera sports sedans. Headquartered in Atlanta, Georgia since 1998, PCNA is also home to the first Porsche Experience Center in North America featuring a module-based 1.6 mile driver development track, business center, and fine dining restaurant, 356. The company operates a second Porsche Experience Center near Los Angeles. That 53-acre complex features a driver development track with eight educational modules totaling 4.1 miles, a business center, and Restaurant 917. PCNA employs over 300 people who provide parts, service, marketing, and training for 188 dealers. They, in turn, work to provide Porsche customers with a best-in-class experience that is in keeping with the Porsche brand's nearly 70-year history of leadership in the advancement of vehicle performance, safety, and efficiency. PCNA is an indirect wholly-owned subsidiary of Porsche AG, which is headquartered in Stuttgart, Germany.

At the core of this success is Porsche's proud racing heritage that boasts some 30,000-plus motorsport wins to date.
