

HOFELE does it again...
Mercedes-AMG GLE 53 Coupé – enhanced by HOFELE-Design GmbH

A few months ago, we saw the first HOFELE model based on the Mercedes-Benz GLE Coupé. Now we see the latest HOFELE Coupé based on the AMG GLE 53 version. With the familiar HOFELE signature two-tone exterior paint finish, exterior styling enhancements and a stunning interior design that makes this Coupé really unique.

There are many companies offering 'modified' Mercedes-Benz models, but most of these seem to just offer what look like "add-on" parts. Whereas HOFELE provides its clients with fully Bespoke vehicles, where styling enhancements are designed to integrate with and complement the Mercedes-Benz base vehicles.

The GLE Coupé by HOFELE is instantly recognisable as a Bespoke vehicle. The exterior - it is the front grille and bumper that receive the most attention by HOFELE, the standard AMG grille is replaced by the strong styling of HOFELE's own design and the revised styling of the front bumper and the detailing around the air intakes. More design features can be seen at the rear, with the fitment of additional elegant chrome finishers. The bold exterior refinements are complimented by the HOFELE 22" Mythos wheels.

As with all models by HOFELE, the interior is a very special place to be....The HGLE Coupé seats and interior door surfaces are finished with a unique “HOFELE Sport Design” leather perforation and stitching pattern to the Pepper Red Nappa leather with contrasting Black leather and Alcantara.

As A quick search of HOFELE on social media and we found this great video on the new HGLE 53 Coupé by HOFELE <http://www.youtube.com/embed/O8KdLUBkR2E>

HOFELE-Design GmbH is a contractual partner of Mercedes-Benz AG, this year the company has launched an impressive range of BESPOKE vehicles based on Mercedes-Benz models including the AMG E53 Cabriolet, EQC, G-Wagon, GLS and GLE SUV.
