

All-new 2022 Nissan Pathfinder makes ground-breaking entry into the Middle East

Dubai, UAE (12 December 2021) – Furthering its SUV leadership and strengthening its line-up to cater to the evolving needs of customers in the Middle East, Nissan unveiled the all-new 2022 Pathfinder amongst VIPs, partners, customers, media, and employees at Expo 2020 Dubai earlier this month.

Embracing the toughness of its predecessors, the fifth-generation Pathfinder features a revolutionary design while redefining the standards of comfort, connectivity, and performance.

Sharp, muscular design cues pay homage to the original 1987 model and conveys both strength and capability, while an all-new 9-speed automatic transmission provides strong acceleration for a smooth and direct vehicle response. Within the cabin, infotainment and connectivity upgrades including the addition of ProPILOT technology help reduce distractions and enhance attentiveness for a more intuitive and confident driving experience.

More details on product specifications and availability in the Middle East will be announced soon.
